MEDIA RELEASE

8 October 2020

Who wants an LNP Frankenstein government?

Voters should be gravely concerned about Deb Frecklington and her willingness to risk our economic recovery with a Frankenstein coalition that will be totally unworkable.

Let's not forget that Deb Frecklington and the LNP asked, 64 times, for Queensland's borders to be open, risking our region, our economy and the people of Queensland.

Only Labor has a strong government which will keep Queenslanders safe and lead the state to an economic recovery.

Why would you vote for One Nation? They have one solitary ineffective Member in the Queensland Parliament, who spoke against Labor's industrial manslaughter legislation. This legislation means that employers who are negligent with health and safety can face jail time and significant penalties.

LNP is also preferencing the Greens and, with the deals they've done with One Nation and Katter's party, you just don't know who you're voting for.

Between the LNP, One Nation, Katter's and the Greens, their preference deals will only cause a chaotic minority government with crossbenchers pulling the strings.

We need a strong, stable government and the Palaszczuk Labor Government has a track record in delivering just that. Now is not the time to risk Deb Frecklington's cut, sack and sell future.
